

# Low-Income Workers with Long Commutes, 2016

St. Louis Metropolitan Area

October 2019

This map depicts, by home location, the estimated percentage of workers with an income of \$25,000 or less per year and who commute 60 minutes or more to work. This data is depicted using 2010 census tracts. Tract boundaries are not shown.

- | Percent of Workers | Other Map Items    |
|--------------------|--------------------|
| 0% to 5%           | Interstate Highway |
| 5% to 10%          | Major Road         |
| 10% to 15%         | County Boundary    |
| 15% to 20%         | River or Lake      |
| 20% to 25%         |                    |
| Over 25%           |                    |
