

Proposed Amendments to FY 2021-2024 Transportation Improvement Program (TIP) & Air Quality Conformity Determination

January 2021

Illinois Department
of Transportation

Air Quality Conformity Determination

- Air Quality Conformity Determinations for TIP limited to twice a year – 2013 Board Action
 - Annual TIP update (June-August)
 - Mid-year conformity (October-January)
 - If proposed amendment necessitates

Air Quality Conformity Determination

- East-West Gateway Region in non-attainment or maintenance of National Ambient Air Quality Standards for ozone
- Projects in TIP must be analyzed to determine predicted future emissions conform with air quality plans and budgets
- All projects must be included - - significant projects are “called out” and scrutinized
